NURIZZAH HANANI BINTI ROSLAN

Address: Kuala Lumpur, Malaysia
Phone: Available Upon Request
Email: hananiroy@gmail.com

SUMMARY

Computer Science graduate with practical experience in software development, frontend development, mobile application development, and networking through internships, hackathons, and academic projects. Skilled in building responsive web and mobile applications using Laravel, Flutter, Vue.js, Firebase, SQL, and modern frontend technologies. Experienced in software testing, debugging, UI/UX implementation, and collaborative development environments. Strong problem solving, communication, and leadership abilities with passion for software engineering and continuous learning.

EDUCATION

Universiti Teknologi Mara (UiTM) — **Jasin, Melaka**
Bachelor of Computer Science (Hons.) Netcentric Computing — *October 2022 – March 2026*

- Relevant Coursework: Computer Networks, Network Security, Web Development, Mobile Application Development, Distributed Systems, Network Programming, Cybersecurity, IoT System Development, Operating Systems, Software Engineering, Database Systems.

Malacca Matriculation College — **Masjid Tanah, Melaka**
Computer Science — *October 2020 – March 2022*

- Relevant Coursework: Computer Science, Mathematics, Physics, Chemistry, English, General Studies.

EXPERIENCES

MTECHNIX SDN BHD — **Kuala Lumpur, Malaysia**
IT & Cybersecurity Engineer Trainee — *June 2026 – October 2026*

- Monitored and maintained organizational security posture adhering to ISO 27001 and 27002 frameworks.

GROWTH RTS SDN BHD — **Petaling Jaya, Selangor**
Software Application Developer Intern — *September 2025 – December 2025*

- Supported UI/UX improvements by translating design mockups into responsive interfaces.
- Assisted in system testing, bug fixing, and enhancements to improve functionality and usability.
- Collaborated with team members to support system deployment and maintenance.

ACHIEVEMENTS & CERTIFICATIONS

HATCHQUEST@ UTM, Top 10 Finalist (2024)

- Competed in a national-level startup bootcamp and competition designed to nurture entrepreneurial skills. Developed innovative ideas and collaborated in a high-pressure environment.

HATCHQUEST@ UiTM, 1st Place Winner (2024)

- Won a university-level entrepreneurial competition focused on generating ideas for future market demands.

VARSITY HACKATHON, Top 15 Finalist (2024)

- Selected among the top teams in a competitive hackathon, showcasing strong problem-solving and innovation skills.

PPKOMP (2024 and 2025)

- Managed Competed in the elite Sulung division at the national-level Malaysian programming competition. Awarded Bronze in 2024 and Awarded Silver in 2025.

CCNAv7: INTRODUCTION TO NETWORKS **| Cisco Networking Academy**

GOOGLE AI PROFESSIONAL CERTIFICATE **| Coursera**

GOOGLE CYBERSECURITY PROFESSIONAL CERTIFICATE **| Coursera**

PROJECTS

HSSE PIPP Centralized System *(Internship Project – Growth RTS Sdn Bhd)*

- Contributed to the development of an internal web-based system, handling frontend implementation using HTML, system testing, documentation, and ongoing support and maintenance.

4USpace - Mobile Application *(Final Year Project)*

- Developed a mobile app with geolocation that enables users in Malaysia to find and book available spaces, featuring map-based search and customizable filters.

Smart Training Golf Counter (IoT)

- Developed a golf training ball counter to help players track performance and monitor progress during practice sessions running on an ESP32-WROOM-32 and displays the ball count on an LCD screen.

Hotel Booking Management System

- Developed a comprehensive web-based hotel booking management system using Laravel, focused on managing room availability, bookings, and customer information efficiently.

Sugarly Dessert Web Development:

- Created a user-friendly e-commerce website for selling sweet treats and bakery items, with a clear homepage and simple navigation to enhance the shopping experience.

KPPIM Network Infrastructure

- Designed and implemented a new network architecture that meets all aspects of Internet speed, reduces latency and provides more responsive online user experience.

Zakat Website

- Developed an accessible website for a zakat organization, ensuring usability for both normal and color-blind users, with inclusive design considerations.

ACTIVITIES

Exco corporate communications, leadership and external and internal relations - Netcentric Computing

- Responsible for leadership, internal and external relations, and managing communication strategies for the department.

Floor Manager – rawSEC Kunjung Selatan Keselamatan Siber dan CTF (rAKSASA)

- Oversaw event flow and coordination, ensuring smooth execution of cyber security-related activities and Capture the Flag (CTF) competitions.

Corporate Communications Bureau – rawSEC Kunjung Selatan Keselamatan Siber dan CTF (rAKSASA)

- Managed media, public messaging, and branding for the cybersecurity event.

Protocols Bureau Member – Majlis Anugerah Dekan 2023

- Handled official event protocols, guest arrangements, and formalities to ensure a smooth event experience

SKILLS

Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability, Leadership and Time Management
Language: Bahasa Melayu (Native), English (Business Fluent)
Computer Skills:

Languages:
-HTML
-C++
-Java
-JavaScript
-CSS

Software:
-Database: Microsoft SQL Server and Microsoft Access, Firebase.
-Framework: Laravel, Flutter, Vue.js.
-Tools: Git, Visual Studio Code, Wireshark, Android Studio.
